PROFESSIONAL SUMMARY

Data Engineer with 3+ years of combined data and software engineering experience building ETL/ELT pipelines, medallion-architecture lakehouses, and analytics-ready dimensional models using Python, SQL, Apache Airflow, dbt, PySpark, Databricks, and Microsoft Fabric. Skilled in PostgreSQL and data warehousing, with full-stack experience (React, Next.js, Node.js, TypeScript) that supports end-to-end delivery of reliable, well-modeled data for BI reporting.

TECHNICAL SKILLS

Languages: Python, SQL, PySpark, JavaScript, TypeScript

Data Engineering: ETL/ELT, Data Pipelines, Medallion Architecture (Bronze/Silver/Gold), Apache Airflow, dbt, Fivetran, Data Quality and Validation, Orchestration

Data Modeling: Dimensional Modeling, Star/Snowflake/Galaxy Schema, Slowly Changing Dimensions (SCD Types 0-7), Fact and Dimension Tables, Data Warehousing

Lakehouse Platforms: Databricks (Delta Lake, Databricks SQL, Workflows/Jobs, Dashboards); Microsoft Fabric (Lakehouse, OneLake, Data Factory Pipelines, Dataflows Gen2, Notebooks, Power BI Direct Lake)

Databases and BI: PostgreSQL, Prisma ORM, DBeaver, MinIO (Object Storage), Power BI, SQL Reporting

Software and Tools: Node.js, Express.js, REST APIs, React, Next.js, Tailwind CSS, Docker, Git, GitHub, Postman, Jest, Playwright, Zod

PROFESSIONAL EXPERIENCE

Software Engineer | Grafikaly Business Communications Pvt. Ltd. | Remote, Surrey, BC, Canada **Jun 2026 - Present**

- Design and automate ETL/ELT workflows and Bronze/Silver/Gold pipelines to improve reporting efficiency
- Build lakehouse solutions on Databricks (Delta Lake, Databricks SQL, Workflows/Jobs) and Microsoft Fabric (Lakehouse, OneLake, Data Factory, Dataflows Gen2, Notebooks)
- Develop dbt transformation models and dimensional models (star, snowflake, galaxy) with SCD handling to deliver analytics-ready datasets
- Orchestrate data workflows with Apache Airflow and store raw data in MinIO object storage
- Develop full-stack applications and backend services on PostgreSQL; optimize query and database performance for scalability and reliability
- Integrate third-party APIs; use AI coding assistants (Claude, ChatGPT, Codex) to accelerate development and code review

Web Developer Intern | Grafikaly Business Communications Pvt. Ltd. | Remote, Surrey, BC, Canada **Jun 2024 - May 2026**

- Built Databricks dashboards (medallion architecture) and Power BI dashboards, plus SQL reporting, for business analysis
- Automated data ingestion with Fivetran and used MinIO object storage in data workflows
- Built and deployed a full-stack news platform for a New Zealand client supporting 500+ daily users
- Implemented Zod-based validation across forms and APIs, improving data quality
- Containerized environments with Docker and established testing workflows using Jest and Playwright

Frontend Developer Intern | Diginowa **May 2023 - Apr 2024**

- Developed responsive UI components with HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS; converted Figma designs into production-ready interfaces

SELECTED PROJECTS

NZ Sports Data Platform | Python, Airflow, dbt, PostgreSQL, MinIO, Fivetran, Docker

- Designed a medallion-architecture data platform covering API discovery, ETL/ELT workflows, PostgreSQL schemas, and source tracking; used Postman for API testing and Fivetran for data sync

Occupation and Training Analytics Dashboard | Databricks, Delta Lake, Databricks SQL

- Built dashboards on multiple CSV sources using Bronze/Silver/Gold layers to deliver analytics-ready reporting

Retail Sales Dashboard | Power BI, Python, PostgreSQL

- Built Power BI dashboards with Python-based data preparation and PostgreSQL integration

EDUCATION AND CERTIFICATIONS

Master of Computer Applications (MCA) | IGNOU, Pune **Admission in progress, 2026**

BBA (Computer Applications) | AKI's Poona College of Arts, Science and Commerce **2023 - 2026**

Diploma in Computer Applications | NIELIT

Certifications: Website Building Using AI (Snackable-ed); Canva Design (AI) (Bajaj Finserv and Udaan NLS)
